

STAINLESS STEEL SKI UPGRADE

Installs can be arranged for the Coming Home Rally or kits can be purchased separately.

Every kit includes colored instructions, stainless hardware, and putty tape.

Upgrade skis are custom designed for your floor, to ensure a perfect fit.

Kits are available in both styles of skis shown above plus non-flush floor skis.

If your skis look like these or if you just want to be proactive, then this kit is exactly what you need.

What the final product looks like.

For further inquiries or to schedule an install, you can reach me at the following:
